

CORONA/SOUTH TEMPE CHARACTER AREA

Summary of Gaps to Address in the Character Area Plan

Identified Gap (by alphabetical category)
BIKE + WALKABILITY
Create a neighborhood greenway/bike route system that: <ul style="list-style-type: none">Connects into the canal path system as well as feeds into the employment centers of the ASU and Discovery Research ParksProvide collector streets improvements with shade and enhanced sidewalks to encourage walking/bikingProvide pedestrian activated HAWK crossingsIncludes restrooms, drinking fountains, shaded rest stop periodically + signs that list places of interest (wayfinding) along paths
Provide continuity with the bike lanes that stop and start in several areas
INTERSECTIONS + STREETS
Improvement to the block walls/fences, sidewalks and landscape treatments along arterial streets. Landscape needs to be in compliance (weeds need to disappear)
Maintain the streets: maintain potholes; ensure utilities landscape areas they damage; maintain medians
Noise abatement (Elliot Rd. and Rural)
Provide tree shade on arterial streets
Explore identifiable theme for the major arterial intersections (could include color of street signs, lighting color or character area signage)
TRANSPORTATION
Neighborhood circulator bus to key destinations (Mill Ave, Town Lake, ASU, Library Complex) and comfortable bus stops at key locations
